

LAURIE CAMERON, CC, MCRC
International Author, Coach, Speaker, Trainer

Evolutionary Relationship Expert

The driving force behind Laurie Cameron's work is the belief that the greatest gift we can give our children, each other, and our world is to **WAKE UP** and be positive role models for conscious choice, compassionate communication, and healthy relationships.

Laurie is on a mission to promote a culture of compassion in our homes, offices and schools by helping people **WAKE UP** their relationships and transform their lives. And she knows that the best way to do that is actually rather simple: *choose more loving thoughts, words and actions today than you did yesterday.*
